

a second electrode opposing the first electrode;
a plurality of dot areas arranged in a matrix form at an overlapping portion of the first electrode and second electrode, each of the dot areas including a first section and a second section; and
a reflector arranged outside of the first electrode and the second electrode;
a color filter arranged in the first section;
the first section comprising about 15% or more and about 45% or less of the dot area.

REMARKS

Claims 30, 31, 33-41 and 44-67 are pending. By this Amendment, claims 56 and 62 are amended to more clearly recite the invention.

Applicants respectfully submit that this application is condition for allowance for the reasons set forth in the August 21 Amendment After Final Rejection. Favorable consideration and prompt allowance are earnestly solicited.

Respectfully submitted,

APPENDIX

Changes to Claims:

The following is a marked-up version of the amended claims:

56. (Twice Amended) A liquid crystal device comprising:

a first electrode;

a second electrode opposing the first electrode;

~~a liquid crystal material provided between the first and the second electrode;~~

— a plurality of dot areas arranged in a matrix form at an overlapping portion of the first electrode and second electrode, for display, wherein each of the dot areas includes a first section and a second section;

~~a color filter positioned between the liquid crystal material and one of the first and the second electrode; a reflector arranged outside of the first electrode and the second electrode; and~~

~~wherein the a color filter is selectively arranged in the first section.~~

62. (Twice Amended) A liquid crystal device comprising:

a first electrode;

a second electrode opposing the first electrode;

— a plurality of dot areas arranged in a matrix form at an overlapping portion of the first electrode and second electrode, each of the dot areas including a first section and a second section; and

~~a reflector arranged outside of the first electrode and the second electrode;~~

~~a color filter arranged in the first section;~~

~~the first section comprising about 15% or more and about 45% or less of the dot area.~~
